Roles and collaboration

Mathias Bjurbäck   Project manager
Adam Clark   User interface and economics
Viktor Edsand   Tester
Mathias Karlgren   Software architecture
Dag Fridén   Share Point, remote servers and logic.

During the project these roles can be updated and the group will also work together with some of the roles.

Every person in the group has been given a number of tasks and field of responsibility. The tasks are distributed during the meetings and stored in Microsoft Share Point. An example of field of responsibility is "row commenting". The person is responsible of that everyone in the group performs "row commenting" in a good way.

Meetings:
Monday   13:00-17:00
Wednesday   10:00-11:00
Thursday   13:00-17:00

Meeting agenda
- The project manager opens the meeting.
- Follow up on tasks – are they completed? If not- why?
- Work
- Discussion - what to be done until the next meeting? Is the project going to be done in time?
